

SPACE 1999

Moonbase Crew Quarters for 28/32 mm Tabletop Gaming

Assembly Instructions

Build the room and insert the floor. Then build the bed box [A] and after that the pillow [B]. The yellow flaps are the glue flaps. Glue the pillow with the grey side onto the bed (inside the grey outlined rectangle).

After the bed, build the table. Roll up and glue together the stand strip [E], and glue it to the base [D]. Finally, glue the tabletop [C] on top of the stand.

The chair [F] is not really complicated. Fold it up and glue it together. Then glue the legs [G] to the front and back of the lower part of the chair.
