

Cardboard Warriors

The paper miniatures wargaming forum

Chimera Instructions

1. Score all dotted lines
2. Score along the green line between the yellow and red scales on the dragon neck
3. Score the tabs on the goat neck and the dragon neck
4. Cut out all pieces separately
5. Cut along the line from the left fore leg and along the left legs
6. Fold and glue the legs underneath and cut out the lion from the top
7. Curve the back so the model stands and fold the head into an opened bottomed box that has a curved front
8. Fold and glue the other scored pieces
9. Cut out the tail, flip it over and score down the middle
10. Fold tail slightly to a "V" shape and glue in place
11. Cut out the two halves of the dragon neck and fold them to have "V" cross sections
12. Fold the triangular glue tabs inside the neck
13. Put glue on the tabs and carefully align the pieces as you glue them together (this is the most fiddly bit)
14. Cut out the dragon head and glue to the top of the kneck
15. Cut out the goat kneck. It curls into a flat(ish) trunkated cone by gluing the big white tab to the short opposite edge that has no tab.
16. Cut out the goat head and glue it to the tabs at the top of the kneck
17. Curve the apex of the horns forward sot he horns project backwards
18. Cut out the wings fold them up along the fur line and glue them over the white area on the back
19. Glue the goat kneck to the inside of the right shoulder
20. Glue the dragon head to the inside of the left shoulder

NB this is a mash-up and mod of Eddnic's manticore model and his red dragon model. The goat bits are original to this model.
